

5C Hollie

We have conducted a survey to find out what teachers like doing nowadays and what they liked in the past. Here is our finding.

In the past, teachers used to play hopscotch, hide-and-seek and marbles. Among the three games, teachers liked playing hopscotch and hide-and-seek most. We think these games were the most popular because they were fun.

Nowadays, teachers do shopping, take photos and play online games when they have time. Their favorite leisure activity is taking photos. We think taking photos is popular because it is interesting.

To conclude, we find that the leisure activities teachers did in the past were similar to those we play nowadays. However, the leisure activities they do nowadays are very different from ours.
