10th February, 2017

Dear Mr. Earth,

I am sad to know you are sick. I think there is something I can do to help you get better.

At home, I can use less water and use less electricity. I can turn off the taps to save water. I can also turn off the lights to save electricity.

At school, I can use less paper by writing on both sides of the paper. I can reuse paper to do some art and craft. I can also recycle plastic bottles by putting them into the recycling bins.

Get well soon.

Yours,

Layla
