A Trip to Pakistan

My dad, brother and I went to Pakistan this summer holiday.

Although Pakistan is sunny and hot, we still enjoyed our trip.

We did many things in Pakistan. First, we went to Marine Park, we rode on a roller coaster. Although riding on the roller coaster was fun, it was scary. My brother preferred riding on a banana boat to going hiking. I would rather play water sports than ride on a cable car.

There were a lot of spicy and delicious food. My dad loves spicy food a lot. I preferred eating sweet to eating spicy food. Although we ate a lot of delicious food, it was unhealthy.

I am very happy that we got time to visit many places and I got time to spend with my family.
